MAY BUILD MILL TO HANDLE TUNGSTEN	
-----------------------------------	--

T. L. Oddie and John Sara are working a very promising tungsten mine in Cottonwood. They have a formation over 100 feet wide which is shot all through with the valuable mineral some of which assays as high as 60 per cent. Mr. Oddie is negotiating for a consolidation of the tungsten mines in North canyon, Alum creek and Cottonwood canyon, with the view of erecting a mill centrally situated which will work the ores from the three districts at a nominal cost.—Hawthorne Bulletin.

PREDICTS DIVIDENDS FOR THE RESCUE-EULA

SALT LAKE MINE OPERATOR FORECASTS FINE FUTURE FOR PROPERTY

This morning, the winze was started anew in the Rescue-Eula from the 950 level. It was put down a matter of about 30 feet by hand and then, when the shock of blasting would not be likely to disturb either the machinery or the timbering, an electric hoist was installed. The electricians yesterday concluded the task of wiring.

There have been a number of prominent mining men underground in the past day or two and W. H. Webster of Salt Lake City, a director in the Nevada Hills Mining company and in the Round Mountain Mining company, which latter he has recently inspected, was the mouthpiece for the property. He did not say many words, but he expressed a monthful: "Rescue-Eula, in my opinion, will be Tonopah's next dividend payer. It looks well in all the raises and particularly well in the east drift and in the winze. In our opinion the workings thus far have been conducted at one of the ends and on top of a lens that is of incalculable dimension and wealth. No one can tell what future operations will bring forth in this property."

BASKETBALL TEAMS TONIGHT AT AIRDOME

RESIDENT MEMBERS OF THE LEADING UNIVERSITY TEAM MEET TONOPAH

Tonight the Airdome will be the scene of the best and speediest game of basketball ever staged in Tonopah, the two teams which will line up against each other this evening are evenly matched and each contains a star of the first magnitude in the persons of both Dick Sheehy and Lloyd McCubbin both of whom are rated as two of the best on the Pacific coast.

The line-up for the game is as follows:

Varsity	Tonopah
Lloyd McCubbin	R. F. "Dick" Sheehy
Wendell Jones	L. F. William Cuddy
Bernard Flood	C. Fred Stoll
Syle Lutz	R. G. John Dymann
Pizano Fennel	L. G. Walter Bowler

The game will be refereed by Mr. Bennett and will start immediately after the first show exit. There will be but one price of admission for all and that but twenty-five cents. The usual dance will be given after the game by a five piece orchestra under the auspices of the team.

MIDWAY IN ORE

The material advancement in the price of Tonopah Midway Consolidated is due to the improvement in the east drift on the 800 level. The ore is four and one-half feet wide of commercial grade in the face. Figures are not being given out by the company as authentic until the lens has been pierced for a sufficient distance to prove its permanency, but it is stated semi-officially that the face of the drift is running \$24 to the ton.

FRACTURES ARM

John W. Twigg, secretary of the Ophir, was run down recently by an auto in San Francisco, and received a fracture of one arm.—Virginia Chronicle.

HEAVY VALUES ON ROUND MOUNTAIN

CLEANING OF BEDROCK SHOWS EXCELLENT SAVING SO FAR

Three officials of the Round Mountain Mining company, vice-president James R. Davis, Director W. H. Webster and Superintendent R. H. Ernest, were in Tonopah yesterday. They were all greatly pleased with the showing both in the underground workings and in the placer deposits. Mr. Davis, as spokesman for the party, said:

"The operations that have recently been carried on are showing up the property in better shape than we ever fond desired. Hitherto we have spent nearly all our time underground and, while the Sunnyside shaft continue to be a steady producer, with showings on its deepest level that would have inspired enthusiasm in other years, we made but a hasty trip underground and were fascinated by the surface work that we spent the greater part of our time on the placer field.

"The work of cleaning the bedrock has begun and the riffles show that heavy values are being secured. This work will be continued all season. While in moving the gravel there has been an enormous amount of gold sent down to the sluice boxes, the greater amount, particularly in nugget form, remains in the crevices or the bedrock, where it is removed.

"A survey is being made of the ground to be worked and I am confident that in both yardage and values it will materially exceed our first estimates, which were aimed at that time to err on the side of conservatism."

CHAIRMAN NAMED FOR FOURTH OF JULY

At a meeting of the executive committee of the Fourth of July celebration held in the offices of J. Grant Crumley last evening the following were appointed as chairmen of the various committees to have charge of the celebration:

Drilling, W. B. Evans; small sports, J. Grant Crumley; decorations, Mrs. Thos. Lansborough; mardi gras, Robt. J. Highland; music, Bud Morris; hand naster, Art Keenan; children's entertainment, Mrs. Mayne Schwelbe; transportation, J. E. Peck; fire works, Mrs. J. E. McNamara; parade, Mrs. Roy Davenport; Goddess of Liberty contest, Mrs. Hunt; financial, H. R. Grier; advertising, H. D. King; boxing, Nick Ableman.

Each chairman is to select his or her assistants.

FINE EXHIBITION OF SCHOOL WORK

DISPLAY OF SPECIALTIES AND GRADE WORK PLEASURES THE PARENTS

To say that the Tonopah schools have done splendid work during the past school year is putting it too mildly. From the first grade to the high school each teachers display of the work her pupils have done is worth any person's time to go through the schools and examine the effort put forth.

The work of the high school has been most satisfactory and the display for Thursday by the domestic science, and the manual training classes was little short of marvelous as to skill, technique and artistic tendencies. These two exhibits include the work of all grade and high school pupils who have come under the care of these instructors. The work is on display in the assembly room of the high school. In domestic science there is sewing and cooking to be seen and in order that the parents may more easily see the work of the grades that interest them most, each grade will have its own color of card board upon which the sewing, fancy work and crochet will be mounted. From the first grade to the high school there will be shown seventy-five dresses, made by the little ladies themselves with the exception of three or four dresses upon which the pupils had help.

The eighth grade girls will, this afternoon, receive their diplomas, wearing the dresses that will be on exhibit Thursday. Each bit of their clothing these girls made.

All day Thursday the high school domestic science pupils will cook for their exhibit and serve hot ginger cookies and tea to all visitors.

The furniture made by the manual training pupils is artistic. There are coat racks and dish drains, small tables, typewriting tables, fancy-work tables, piano benches upholstered in leather, something new. A Morris chair is conspicuous, not only for its well set up frame, but for the finish and taste. A davenport was made by a senior, Harold Bowler, and it is to say the least, a beauty. One young lady, a 1916 graduate, Miss Fannie Holmes is capable of building and has some fine work on display.

From the kindergarten, where they specialize on constructive work through the eighth grade, there is evidence of labor expended upon each and every pupil. The first grades are certainly a credit to third year work. Thursday is visiting day and every person should avail themselves of the opportunity to visit the schools.

SCHOOL DISPLAY CONTINUED FOR PARENTS TONIGHT

Superintendent Dilworth desires it to be understood that the displays of students will be continued this evening so that all who remain for the exercises may have a chance to study the work of the various classes.

GATHERING OPENED BY FERVENT PRAYER

(Continued from Page 1)

Thou hast given to us freedom liberty, purpose and prosperity.

"Although the immediate interests which now control our gathering together have reference to our own national issues, we would not forget the warring, suffering nations of the earth. We pray Thee to bring them speedily, if it be Thy holy will, to terms of peace and conditions of adjustment.

"We bow before Thee and, pausing quietly, ask Thy blessing before entering upon the deliberations of this convention. As Thou dost order the affairs of men, so frame the doings of this great body. Save from all hasty and ill-spoken words. Control judgments, purposes, plans and platform, that all may have Thy pure mind of wisdom and strength. May the men of Thy choice be our choice, and may motive, method and result center in that sure laws of right and in Thy lasting victories of truth and righteousness.

PARENTS TURN OUT IN GREAT NUMBERS

GRADE ENTERTAINMENT IS REplete WITH NOVELTIES PRESENTED BY PUPILS

The grade entertainment given last night in the high school gymnasium was very entertaining and those who attended were given an evening of much amusement. The work would have been a credit to much older boys and girls. The orchestra is deserving of much praise—marked improvement could be noticed and it certainly fills a vacancy that was noticeable in school work. Scenes from Hiawatha, the first number, was more like the work of advanced theatrical tableaux than like the performance of little boys and girls. The work of the principals was very fine. The little tots of the kindergarten did credit to themselves and their teacher Miss Foltz. The Swedish dance done by Miss Taylor's little girls was excellent. Phillip Brissell was the band leader for the boys of Miss Taylor's grade, done up in full dress regalia. To say that he was the whole show isn't fair for the boys sang wonderfully well, but nevertheless he was a show and a good one at that. The Irish lilt danced by the girls of Miss Sullivan's grade was a work of grace personified. Beatrice Thomas, looking like the original Pink Lady, sang in a wonderfully clear voice. The hoop dance was a wonder for its kind. Each girl kept perfect time and some of the girls were the most graceful that could be imagined. The Wooden Shoes and La Tambourine, both folk dances, were danced by pupils of Miss Bradley and Miss Filkins and was most beautifully done.

PERSONAL

D. R. MILLER, the merchant, returned from Oakland this morning.

FRANK CAVANAUGH and William Forman went to Luning this morning. C. D. TERWILIGER, of the Verdi Lumber company, returned to Reno this morning.

MRS. W. W. ANDERSON and family have returned from a month's vacation spent at Elko.

MRS. P. SHEETZ and baby, after a month's absence in San Francisco, returned home this morning.

ELMER RITTER and wife who have been visiting in Virginia City for ten days returned this morning.

MRS. GEORGE ROBERTS was at the depot this morning to welcome the return of her four children from Carson City.

C. F. MEALMAN and family have decided to remove to Monitor Valley where they will devote their energies to ranch life for the summer.

MISS MIRIAM EGAN, who has been teaching school at Sherman, Elko county, returned on this morning's train to spend her vacation with her mother.

PROGRESSIVES OPEN MEETING

(Continued from Page 1)

"What this country needs now is a MAN," announced Mr. Robbins. In the course of his speech he said: "Now as we are met again in national convention there comes to us once more a common knowledge that in 1912 we sounded forth a trumpet that shall never call retreat. And we know that we are here to write a record that shall witness alike to the faint-hearted and the skeptical and to the great army still faithful to the cause, that our vision is yet unclouded and that our standards have not been furled."

"Selfish business and politics never listed in the assets of America her most valuable possession, the priceless heritage which alone is worth the sacrificial cost of preparedness to defend against the world—her Democratic soul. In this time it should be able to plan that we stand alone among the great nations not dominated by the ideal of Caesar. We have our ruthless master men, confident of their right and ability to rule their fellows, but they do not rule us yet."

"We gather to determine our program to meet the practical needs for national action in this time of havoc and horror in other lands. And it is well that we should approach our task with the vision of a better day. We may well resolve that no worse day, with havoc and horror in our midst, shall be known to us or to the coming generations and that we shall wisely plan to preserve in peace our great inheritance."

AMUSEMENTS

BUTLER THEATER

The program at the Butler this evening will consist of a five-reel World Film production "Camille," based on Alexandre Dumas' celebrated novel of the same name, produced by Albert Capellani and featuring Clara Kimball Young, considered one of the most beautiful and accomplished motion picture artists in the world. In this picture Miss Young puts forth what she herself has said is to be the effort of her career, so far. Her "Trilby" was judged to be a very beautiful piece of work. It has delighted millions by its pathos, beauty and sentiment. In "Camille," you have the same fine dramatic art; but Camille is a very vicious, very beautiful and a very celebrated member of the French underworld, with a string of wealthy lovers, and all the usual ways of a woman of her class. Still she is woman enough to really fall in love once and for all. But at the end of it all she dies a tragic death, leaving only the remembrance of her brilliant if unpleasant reputation and her love for Armand. It is her masterpiece. Clara Kimball Young is probably as well known to the Tonopah public as to any community where her pictures are shown, for it will be remembered that Miss Young appeared—in the flesh—on several occasions on the stage of the old Butler theater long before motion pictures were hardly thought of. The preliminary reel will be "Napoleon and Sally," the educated Chimps, in an animal comedy. Tomorrow, Pathe Weekly and "The Traffic Cop," a story showing the inside of police methods.

BABIES MILK TICKETS INTRODUCED IN VIENNA

(By Associated Press.)
VIENNA, June 7.—Milk tickets for young children are to be introduced in Vienna. Babies under one year of age are to be allowed a pint and a quarter of milk a day; those under two years, three-quarters of a pint. The daries are requested to reserve sufficient milk for this demand until eight o'clock in the morning.

The meeting of the Altar society which was to have been held Tuesday is postponed to Wednesday, June 7. Adv. J512. FATHER DISS
